SUMMARY

I am a dedicated web designer and developer with expertise in crafting modern, responsive, and user-focused websites using HTML, CSS, JavaScript, React, Tailwind CSS, WordPress, and other cutting-edge web technologies. I have a strong passion for clean, minimalistic aesthetics and take pride in delivering end-to-end web solutions that seamlessly blend functionality with exceptional design. Fluent in English and a native Thai speaker, I am well-prepared to collaborate with international clients and deliver outstanding results across all projects.

SKILLS

Languages: Thai (Native/Bilingual), English (Full Professional)

Interests: Web Development, Data Analysis, Cooking, Sewing

Technical Skills: Microsoft Office Suite, MS SQL, ERP System, HTML, CSS, JavaScript, React JS, WordPress, Wix, Trello

PROJECTS

Beauty Hive
beauty-hive.vercel.app/
· A sleek React website that integrates the MakeupAPI to display beauty products by category and brand. Includes optimized API calls, responsive design, and a user-friendly interface.

TalkBack
talk-back-ten.vercel.app/
· A React-based AI-powered chat assistant utilizing OpenAI's text generation models. It offers users the ability to translate input into different communication styles.

GBAC Website
www.gbacsports.com/
· The official website for the Greater Bangkok Athletics Conference. Built with React, Vite, and Tailwind CSS, it features a Google Maps integration, optimized performance, and a modern responsive layout to highlight member schools and events.
